September 11, 2017

Dear Community Member:

The Domestic Violence Coalition is a non-profit organization that consists of various agencies who work with victims of domestic violence. We meet on a monthly basis and discuss upcoming events, fundraising, memberships, etc. We hold various events throughout the year to raise awareness to the community about preventing domestic violence.

One of our main events is Footsteps to Light, which is held every year during domestic violence week in October. We meet together with the coalition and any community member who chooses to attend. A balloon ceremony is held in memory of past victims. We then march for a few city blocks in Ogden, ending up with a presentation of survivor awards and a short program.

Our coalition also provides training in the Fall to law enforcement officers in Utah. The training is usually a full day, sometimes two days, and the main topic is domestic violence awareness.

All of these events, to continue providing domestic violence awareness, can only be achieved through donations from the members of our community. We are asking your support for any donations to the Weber/Morgan Domestic Violence Coalition. Names of individuals and/or agencies who donate will be posted at each of our events. Please contact us through email or by contacting the chairman.

We thank you for your consideration
