

**OBJECTIVES**

- Manufacturing
- Material Handling
- Vehicle Maintenance
- Construction
- Commercial Activities
- Roadways
- Waste Containment
- Housekeeping Practices

**WEBER COUNTY**

**ENGINEERING DEPARTMENT**

2380 Washington Blvd., Suite 240  
 Ogden, UT 84401  
 (801) 399-8374

**DESCRIPTION:**

Prevent or reduce the discharge of pollutants to stormwater from waste handling and disposal by tracking waste generation, storage, and disposal; reducing waste generation and disposal through source reduction, re-use, and recycling; and preventing runoff and runoff from waste management areas.

**APPROACH:**

- ▶ Maintain usage inventory to limit waste generation.
- ▶ Substitute or eliminate raw materials.
- ▶ Modify process or equipment.
- ▶ SARA Title III, Section 313 requires reporting for over 300 listed chemicals and chemical compounds. This requirement should be used to track these chemicals although this is not as accurate a means of tracking as other approaches.
- ▶ Track waste generated.
- ▶ Use design data and review: process flow diagram, materials and applications diagram, piping and instructions, equipment list, plot plan.
- ▶ Use economic data and review: Waste treatment and disposal cost. Product utility and economic cost. Operation and maintenance labor cost.
- ▶ Recycle materials whenever possible.
- ▶ Maintain list of and the amounts of materials disposed.
- ▶ Segregation and separate waste.
- ▶ Cover, enclose, or berm industrial wastewater management areas whenever possible to prevent contact with runoff or runoff.
- ▶ Equip waste transport vehicles with anti-spill equipment.
- ▶ Minimize spills and fugitive losses such as dust or mist from loading systems.
- ▶ Ensure that sediments or wastes are prevented from being tracked off-site.
- ▶ Training and supervision.
- ▶ Stencil storm drains on the facility's property with prohibitive message regarding waste disposal.

**LIMITATIONS:**

- ▶ Hazardous waste that cannot be re-used or recycled must be disposed of by a licensed hazardous waste hauler.

**TARGETED POLLUTANTS**

- Sediment
- Nutrients
- Heavy Metals
- Toxic Materials
- Oxygen Demanding Substance
- Oil & Grease
- Floatable Materials
- Bacteria & Viruses
- High Impact
- Medium Impact
- Low or Unknown Impact

**IMPLEMENTATION REQUIREMENTS**

- Capital Costs
- O&M Costs
- Maintenance
- Training
- High
- Medium
- Low
