**Date:** October 31, 2024

**To:** Weber County Board of Commissioners

**From:** Charlie Ewert

**Re:** November 5, 2024 County Commission Agenda Item: Winston Park Rezone and Development Agreement.

In the Commission's August 20<sup>th</sup> meeting, the Commission approved the Winston Park rezone and development agreement. The applicant is requesting that the commissioners reconsider certain provisions in the development agreement before it is executed. No rezone has or will occur until and unless the development agreement is executed and recorded.

In the Commissioners October 28<sup>th</sup> work session meeting the Commissioners considered the developers requested revisions, and tentatively settled on the changes in the attached. Those changes are shown in track change.

The following is a summary of those revisions:

- Page 8 – Modifying the development's street tree requirement to better match what was provided in phase 1 of the project.
- Page 9 – Explaining that water wise irrigation controller does not need to be connected to valves at time of occupancy – just installed and connected to power.
- Page 11 – Allowing no more than 50 percent of the patios homes to have no more than one step, with the rest of them having no steps.
- Page 25 – Adding an allowed fence type.

Also attached is the rezone ordinance that the development agreement is dependent on.

## DEVELOPMENT AGREEMENT

### Winston Park Phase 2

THIS DEVELOPMENT AGREEMENT ("Agreement") is entered into by and between Weber County, Utah ("County") and Ogden 3, L.L.C. ("Developer"), known together herein as the "Parties."

## RECITALS

**WHEREAS**, The Developer desires and intends to develop a residential subdivision (the "Project") in the unincorporated area of Weber County known as West-Central Weber; and

**WHEREAS**, The Developer's objective is to develop a residential subdivision that complements the character of the community and is financially successful; and

**WHEREAS**, The County's objective is to only approve development that supports and advances the health, safety, and welfare of the community, as generally described in the general plan and as otherwise determined appropriate by the Board of County Commissioners; and

**WHEREAS**, The general plan advocates, and the Board of County Commissioners hereby further affirm, that new development in the area resulting from a rezone should not only compensate for its impacts on the character of the community and the existing residents, it should also enhance and benefit the existing and future community using smart growth principles such as expansion of parks and open space areas, street and pathway connectivity, and other smart growth principles specified in the plan; and

**WHEREAS**, The Project is currently zoned A-1 (Agricultural). In order to benefit from the additional development rights that the R1-15 zone offers, Developer desires to rezone the Project to the R1-15 (Residential) zone consistent with the terms and provisions contained herein; and

**WHEREAS**, Developer acknowledges that a rezone is not compulsory and that Developer is hereby volunteering to be rezoned. Developer understands that volunteering to be rezoned will result in the obligations and benefits set forth in this Agreement as well as in the new zone. Developer further acknowledges that some of the obligations and benefits set forth in this Agreement might not otherwise be applicable or enforceable without Developer volunteering to comply and benefit from this Agreement; and

**WHEREAS**, Developer understands that the Board of County Commissioners is not obligated to rezone the project, but does so as a result of Developer's voluntary contributions as set forth in this Agreement, without which the County would not realize the full benefits of this Agreement and would not have rezoned the Property.

**WHEREAS**, In consideration of Developer's voluntary contributions, the Board of County Commissioners desire to rezone the Project to the R1-15 (Residential) zone consistent with the terms and provisions contained herein, as generally depicted in **Attachment D: Associated Rezone Area**; and

**WHEREAS**, The Project will be located on land referred to herein as the "Project Site". The Project Site is as more specifically described in **Attachment A: Project Area Legal Description** and illustrated in **Attachment B: Project Area Graphic Representation**. A concept plan showing the general location and layout of the Project is contained in **Attachment C: Concept Plan**;

**NOW, THEREFORE**, in consideration of the recitals (which are incorporated into the Agreement by this reference) and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

### **4. Project Description and Density.**

A residential subdivision within the R1-15 zone that generally complies with the requirements of Code Section 106-2-4.030 "Connectivity-Incentivized Subdivision, as illustrated in **Attachment C.** While this Agreement provides obligations and benefits that only pertain to development within the area described in **Attachment A,** the density allowed is based on the overall legal description of the existing Winston Park Subdivision, recorded in the Office of the County Recorder on July 12, 2022, which is 40.152 acres. The R1-15 zone enables 116 dwelling units on 40.152 acres. The existing Winston Park Subdivision contains 54 lots. This Agreement contains three of those lots and other areas designated as open space. Given this, the County agrees that the Developer is entitled to develop no more than 65 total dwelling

units within the area described in **Attachment A**.

**5. Restriction on Right to Protest Annexation**

If a city or district attempts to annex the Property, Developer, on behalf of itself and any successive property owner within the Project, hereby waives the right to protest the annexation, and agrees that any filed protest is void, and agrees to support the annexation unless County agrees, in writing, with and to the protest. If more than one municipality or district is available into which the entire Project can be annexed, Developer may choose which municipality or district the entire project will join.

**6. Project Location and Illustration.**

The Project is as described in **Attachment A**, and illustrated in **Attachment B and C**.

**7. Vested Rights and Reserved Legislative Powers.**

**7.1. Vested Rights.** Developer shall have the vested right to develop and construct the Project on the Property in accordance with the R1-15 zone, development standards, and other matters specifically addressed in this Agreement, subject to compliance with the terms and conditions of this Agreement and other applicable County Laws in effect as of the Effective Date. The Parties intend that the rights granted to the Developer under this Agreement are contractual and also those rights that exist under statute, common law, and at equity.

**7.2. Exceptions to Vesting.** The Parties understand and agree that the Project will be required to comply with future changes to County Laws that do not limit or interfere with the vested rights granted pursuant to the terms of the Agreement. The following are examples for illustrative purposes of a non-exhaustive list of the type of future laws that may be enacted by the County that would be applicable to the Project:

**7.2.1.** Future laws that Developer agrees in writing to the application thereof to the Project;

**7.2.2.** Future laws which are generally applicable to all properties in the County and which are required to comply with State and Federal laws and regulation affecting the Project;

**7.2.3.** Future laws that are updates or amendments to existing building, plumbing, mechanical, electrical, dangerous buildings, drainage, or similar construction or safety related codes, such as the International Building Code, the APWA Specifications, AASHTO Standards, the Manual of Uniform Traffic Control Devices or similar standards that are generated by a nationally or statewide recognized construction/safety organization, or by the State or Federal governments and are required to meet legitimate concerns related to public health, safety, or welfare;

- 7.3. **Reserved Legislative Powers.** Developer acknowledges that the County is restricted in its authority to limit its police powers by contract and that the limitations, reservations, and exceptions set forth herein are intended to reserve to the County all of its police power that cannot be so limited. Notwithstanding the retained power of the County to enact such legislation under its police powers, any such legislation shall only be applied to modify the vested rights of Developer as referenced herein under the terms of this Agreement based upon policies, facts, and circumstances meeting the compelling, countervailing public interest exception to the vested rights doctrine in the State of Utah as codified in Utah Code 17-27a-508. Any such proposed change affecting the vested rights of the Project shall be of general application to all development activity in the unincorporated areas of the County; and unless in good faith the County declares an emergency, Developer shall be entitled to prior written notice and an opportunity to be heard with respect to the proposed change and its applicability to the Project under the compelling, countervailing public interest exception to the vested rights doctrine.

8. **Certificate of Occupancy Requirements.**

- 8.1. **Each Dwelling to Comply.** Developer, including assigns and successors, understands and agree that no certificate of occupancy for any dwelling unit in the Project will be provided until Weber County has verified compliance with this section.

The County hereby agrees to allow the flexible lot standards as provided by that section of Code. The County also agrees that the conceptual street layout illustrated in **Attachment C** satisfactorily complies with that code section for the purposes of this Project.
- 9.3. **Street Improvements.** Streets in the Project shall be designed and installed by the Developer in accordance with the street cross sections depicted in **Attachment E**.

shall be muted earth-tone in color. Except for the required clear-view triangles, this fence shall be at least six feet in height, but no more than eight feet. Examples of such a fence is provided in **Attachment F**. Trees shall be spaced as evenly as practicable, and shall not be planted within the clearview triangle of an intersection.

**9.3.3.1.3.** At least two different tree varieties shall be used and dispersed in a manner to avoid transmission of pests/disease, or as may otherwise be specified by a landscape architect or other professional qualified in tree health, such that the trees have optimal chance of long-term health.

~~**9.3.3.1.4.** Reasonable openings in the tree canopy should be expected for driveway locations and intersections, including the clear-view triangle.~~

~~**9.3.3.1.5.**~~ **9.3.3.1.4.** Developer agrees to provide or cause to be provided by means of the homeowner's association each street tree with an irrigation mechanism tied either to a homeowner's association master meter, or tied directly to the secondary water meter of the lot that the tree is fronting.

~~**9.3.3.1.7.**~~ **9.3.3.1.6.** Developer is responsible for tree health throughout the duration of the warranty period. Developer agrees to obligate the homeowners association to provide for the tree health thereafter.

**9.3.3.2. Parkstrip Landscaping.** Developer shall place six-inch angular rock, 8-inches deep, in the parkstrip of 1800 South, with a weed barrier beneath. Alternatively, County agrees that Developer may, at its option, install alternative planting and landscaping along 1800 South Street as long as it is operated and maintained by a homeowner's association. County agrees that other park strips in the project may be planted with grass or other landscaping by the Developer or homeowners, which will be operated and maintained either by the adjoining owner or a homeowners association, as may be provided in the covenants.

**9.3.3.3. Construction Drawings to Include Landscaping.** Each development application submitted shall provide a detailed public landscape plan that, at a minimum, shows landscaping materials proposed to be used, the proposed location, species, including the measurements of each tree's mature crown,

and the method of vegetation irrigation.

- 9.4. Non-Public Water-Wise Landscaping.** All lots within the development will have water wise landscaping implemented as follows:

**9.4.1. Smart Controller.** A smart watering controller shall be installed and prewired for at least six irrigation zones. “Prewired” means it is connected to live power, but does not mean it needs to be connected to control valves. A smart water controller, such as an Orbit B-Hyve smart controller or a Rainbird ESP smart controller, is an automatic landscape watering controller that can connect to the internet to automatically adjust watering schedules or amounts based on local weather and environmental conditions. County and Developer mutually agree that the requirement of this Section 9.4.1 will be applied to the homebuilder or homeowner, and that the Developer’s obligation herein is satisfied upon recordation of covenants that stipulate the same.

**9.4.2. Landscape Certificate of Occupancy Requirement.** See Section 8.

- 9.5. Public Utilities.** Developer agrees to underground all utilities in a manner that complies with adopted standards, including any existing overhead utilities within the property and within any right-of-way adjacent to the property. High voltage power transmission lines are exempt from this requirement.

In consideration for the rezone of the Property, Developer hereby agrees to provide, at no cost to the County, the following parks, open space, and trails amenities:

**9.6.1. Parks and Open Space:** Developer agrees to donate \$7,500 per lot or unit within the Project to the Park District. Developer agrees that this is a donation offered of the Developer’s own free will and is not a fee or exaction imposed by the County or Park District. Developer also agrees that once this donation is made the Park District has full discretion on how to use the donation and Developer has no claim to the donation or how it is used. The per-lot donation shall be remitted to the Park District prior to recordation of a subdivision plat. No Building Division or Planning Division application will be accepted or approved in the Project until the County receives written confirmation of this donation from the Park District.

**9.6.2. Trails, Sidewalks, and Pathways:**

**9.6.2.1. Locations.** Developer agrees to install 10-foot wide asphalt pathways in the locations as indicated on **Attachment C** and in accordance with Section 106-2-4.030 of the Code.

**9.6.2.2. Pathway or Sidewalk Trees.** Each pathway and sidewalk within the development shall be lined with shade trees in a manner as specified in Section 9.3.3.1 herein.

**9.6.2.3. Pathway Landscaping.** Developer agrees to install a low-maintenance native seed mix, ground cover, or rock mulch, or a combination thereof along the shoulders of the pathways. Native seed mix shall be hydro-seeded. Mulch shall be substantial enough to minimum its migration onto the pathway. The shoulders shall also be lined with weed barrier. The landscaping shall be such that it will minimize weed growth along the pathway right-of-way. County agrees that other landscaping may be installed by the Developer or homeowners, which will be operated and maintained either by the adjoining owner or a homeowners association, as

may be provided in the covenants.

**9.6.2.4. Phase 1 Pathway Right-of-Way.** Prior to recordation of the first plat, Developer agrees to provide a public pathway right-of-way through a lot(s) in the existing Winston Park subdivision. The lot(s) shall be selected from lots 105 through lot 112. The pathway right-of-way shall be no less than 12-feet wide and shall be dedicated or conveyed to Weber County prior to the recordation of a subdivision plat. It shall be configured so that it connects the sidewalk along Fitzroy Road to the western most edge of the lot(s), providing a stub to the adjacent property to the west. Developer may, at its option, install a pathway within this right-of-way. The pathway shall be at least 10 feet wide.

**9.6.2.5. Construction Drawings to Include Landscaping.** Each subdivision's improvement plans shall provide a detailed landscape plan that, at a minimum, shows landscaping materials proposed to be used, the proposed location, species, including the measurements of each tree's mature crown, and the method of vegetation irrigation.

**9.6.3. Drainage Detention Landscaping.** Developer agrees to install turf grass and appropriate turf sprinkler system in the drainage detention basin for both the Winston Park Subdivision Phase 1 and any additional drainage basins resulting from this Project. The Parties agree that the HOA shall manage and maintain the turf grass.

**9.7. Emissions and Air Quality Standards.** Developer further agrees that all buildings will be designed to an energy efficiency rating that is one climate zone colder than the area. The following are also required:

**9.7.1. Appliance Efficiency.** Natural gas heating appliances, such as furnaces, water heaters, boilers, etc., shall have a 95% efficiency rating. County and Developer mutually agree that this requirement will be applied to the homebuilder or homeowner, and that the Developer's obligation herein is satisfied upon recordation of covenants that stipulate the same.

**9.7.2. Environmental Certificate of Occupancy Requirement.** See Section 8.

**9.8. Outdoor Lighting.** Developer agrees that all outdoor lighting within the Project will be governed by the County's Outdoor Lighting ordinance, Chapter 108-16 of the Code. Except for lights installed by Developer, County and Developer mutually agree that this requirement will be applied to the homebuilder or homeowner, and that the Developer's obligation herein is satisfied upon recordation of covenants that stipulate the same.

**9.9. Patio Homes Development Standards.** County agrees to allow and Developer agrees to build no more than 24 patio homes in the location as generally depicted in **Attachment C**. The County agrees to allow each patio home to be accessed by means of a Shared Private Lane pursuant to Section 106-2-2.030 of the Code. Each shall comply with the following standards:

**9.9.1. Condominiums.** The County agrees that some or all of the patio homes may be platted as condominium dwelling units pursuant to State and County Laws.

**9.9.1.1.** If platted as a condominium unit, when a unit is attached to another unit by means of a common wall, the combination of units shall be deemed a "building" for the purposes of determining building setbacks.

**9.9.1.2.** There shall be at least 10-feet distance between any two buildings.

**9.9.1.3.** The front of each building shall be setback from the 24-foot wide shared

private lane right-of-way at least 15 feet.

**9.9.1.4.** Each building shall be setback from a public street no less than 20 feet, except 30 feet from 1800 South.

**9.9.1.5.** Only two condominium units are allowed per building.

**9.9.2. Single-Family Attached.** The County agrees that some or all of the patio homes may be platted as single-family attached dwelling units, each on their own single-family lot. A lot for a single-family attached dwelling unit may have one of the two side setbacks eliminated so that more than two dwelling units can abut or attach to each other at the common side lot line. The other side setback shall be no less than five-feet, except those adjacent to a street shall be no less than 15 feet. Each dwelling shall be setback from the 24-foot-wide Shared Private Lane right-of-way at least 15 feet, and be setback from the rear lot line at least five feet.

**9.9.3. Single-Family Detached.** The County agrees that some or all of the patio homes may be platted as single-family detached dwelling units, each on their own single-family lot. Each side setback shall be no less than five feet. The rear setback shall be no less than five feet. Each dwelling shall be setback from the 24-foot-wide Shared Private Lane right-of-way at least 15 feet.

**9.9.4. Units Backing Onto 1800 South.** For each unit abutting 1800 South Street, each patio home building shall face away from 1800 South Street. The rear of these buildings shall be designed to appear to the common lay-person as a single-family dwelling. This shall be accomplished by, among other means, avoiding repetitive or otherwise redundant configurations of walls, wall massing, wall planes, windows sizes and locations, rooflines, chimneys, patios, door sizes and locations and other related design elements. Unless approved otherwise by the Planning Director after being presented with an alternative that, in the director's sole discretionary discernment, is better, this shall necessitate custom interior layouts that do not repeat from unit to unit, nor from building to building. The rear setback of these units (from 1800 South) shall be 30 feet.

**9.9.5. One Story Buildings.** Each patio home shall be no greater than one story. ~~Each~~ At least 50 percent shall be designed so that there are no steps entering or within the dwelling unit. The rest may have up to one step.

**9.9.6. Owner Occupancy Requirement.** Each patio home shall be deed-restricted to only allow owner-occupants. Occupancy verification shall be the homeowner association's responsibility. County and Developer mutually agree that the Developer's obligation herein is satisfied upon recordation of covenants that stipulate the same.

**9.9.7. General Design.** The exterior design of the patio homes shall follow the following standards:

**9.9.7.1. Roofline Breaks.** Rooflines shall be broken every 50 feet, with no less than a 12 inch shift between adjacent rooflines that are on a paralleling plane.

**9.9.7.2. Building Massing.** The wall massing of building facades shall be broken at least every 50 feet with no less than a six-inch shift in the plane of adjacent walls.

**9.9.8. Special Considerations.** Developer further agrees to the following:

**9.9.8.1. Privacy Fence and Landscaping.** A six-foot fence shall be constructed between the patio homes development and lots in Winston Park Subdivision Phase 1, and provide privacy trees along said fence, spaced

in a manner such that the crown of the trees will converge at their average maturity.

- 9.9.8.2. Driveway Buffer.** Where driveways serving the patio homes development are configured in a manner that creates a reasonable likelihood for vehicles to hit fencing, screening, or landscaping between the patio homes and adjoining lots in Winston Park Subdivision Phase 1, a permanent concrete barrier shall be constructed to contain said vehicles.

- 9.10. Agreement Alternatives for Moderate Income Housing.** County agrees that the provisions of Sections 9.4, 9.6.1, and 9.7, shall not apply to any lot or unit that has a recorded deed restriction in favor of the Weber Housing Authority for moderate income housing, as defined by State Code, or that restricts the floor area of the residence (excluding basements and garages, if applicable) to no greater than 1,000 square feet.

## **10. Amendments and Revisions.**

This Agreement may be amended by mutual agreement of the Parties only if the amendment is in writing and approved and signed by Developer and County (an "Amendment"). This Section 10 specifies what Project changes can be undertaken without the need for amendment of the Development Agreement, and what changes require Amendment to this Agreement.

- 10.1. Project Facility Repair, Maintenance and Replacement.** Developer shall be permitted to repair, maintain and replace the Project and its components consistent with the terms of this Agreement without amending the Agreement.
- 10.2. Authorized Changes, Enlargements, or Alterations.** As set forth below, County staff may review and approve certain minor changes, enlargements or adjustments ("Changes") to the Project in their respective administrative capacities. The following types of Changes are considered minor, provided that no such Changes shall directly or indirectly result in significantly greater impacts than those contemplated in the approval of this Agreement.
- 10.2.1. Changes Necessary to Comply with Other Laws.** Any resulting changes as a consequence of obtaining or complying with a federal, state, or local permit or approval; provided that the changes are Routine and Uncontested and the application thereof does not materially affect the County's original intent, findings, or conditions on the Project in a manner that would have likely resulted in a different decision on this Agreement, as determined by the Planning Director.
- 10.2.2. Landscaping Changes.** Any changes to this Agreement's landscaping designs, guidelines, standards, plantings, materials and installation of the same anywhere in the project.
- 10.2.3. De Minimis Changes.** Other de Minimis changes requested by the Developer, which are reasonably consistent with the intent of this agreement and the R1-15 Zone, and are Routine and Uncontested.

## **11. General Provisions.**

- 11.1. Assignability.** The rights and responsibilities of the Developer under this Agreement may be assigned. The Developer, as the landowner of the Project Site at the time of the execution of this Agreement, may sell, convey, reassign, or transfer the entire Project Site or entire Project to another entity at any time.

- 11.2. Each notice of default shall specify the nature of the alleged default and the manner in which the default may be cured satisfactorily. The Parties shall send the same types of representatives to mediation as specified for the "Conference" process. Additionally, the Parties shall have representatives present at the mediation with full authority to make a settlement within the range of terms being discussed, should settlement be deemed prudent. **WHEREAS**, State Code Section 17-27a-503 provides for the amendment of a zone district or land use regulation; and

**WHEREAS**, State Code Section 17-27a-503 requires an amendment to a zone district or land use regulation to first receive a recommendation from the planning commission; and

**WHEREAS**, After a public hearing on February 13, 2024, the Western Weber Planning Commission forwarded a recommendation to the Weber County Board of Commissioners regarding this zone district amendment; and
