**Summary:**

The Weber County Community Development Department is requesting approval of an ordinance establishing solid waste fees and governing their collection. Effective April 1, 2020, Weber County entered into contracts with Republic Services and Waste Management, under which these companies provide residential solid waste collection and disposal services for the County in specific portions of the unincorporated area of Weber County. This ordinance officially adopts the fees as referenced in the aforementioned contracts. Future changes to these fees will be adopted by ordinance or resolution.

Republic Services and Waste Management also provide the billing and collection services for the County in the areas they serve. Some of the residential accounts are delinquent in paying their fees to these companies and the County is responsible for the debt associated with these delinquent accounts. As allowed in section 19-6-506 of the Utah Code, this ordinance enables the County to certify the delinquent fees to the County Treasurer and collect the fees as part of the regular, ad valorem property tax notice, billing, and collection system.
