Occupation: Sr. Estimator and Project Manager

Employer: 3C Business Solutions, Inc

Education: Associated Degree from Weber State University

Please list County Board(s) on which you are interested in serving and why?

West Warren Park Board. During the summer my family and I enjoy the park 3-4 times a week with our Posse and 4-H clubs as well as community and family activities. We have made a lot of memories and I feel that I have great ideas to continue making the park better while supporting the best interest of the community and those that use the park.

The park needs constant maintenance and my experience, as a project manager of a low voltage construction company provides me with the experience to help move forward with improvement projects. I understand the needs of those that use the riding arena as well as those that enjoy the bowery and sports fields. Myself and the citizens of unincorporated Weber County love this park and want to see it maintained and constantly improved. Those that have been on the board in the past have laid a great foundation and I want to continue to make the park better. Over the past two years being a part of the park committee, I've been able to see great improvements at the park which is helping to make the part safer for the people that come to enjoy. I've spent countless hours working at the park and feel a great deal of pride when I'm at the part and see how great it is.
